

4) Display the Group name, number of members of that Group and admin of that Group.

```
SELECT
    creategroup.gid,
    CONCAT(
        registration.fname,
        ' ',
        registration.lname
    ) AS AdminName,
    creategroup.grpname,
    COUNT(groupmembers.rid) AS totalmembers
FROM
    creategroup
JOIN groupmembers ON groupmembers.gid = creategroup.gid
LEFT JOIN registration ON creategroup.rid = registration.rid
GROUP BY
    groupmembers.gid
```
