

8) Display post which are liked by user's friend.

a) Query:

```
SELECT
    post.pid,
    plikestats.rid,
    CONCAT(
        registration.fname,
        ' ',
        registration.lname
    ) AS PostBy,
    CONCAT(r1.fname, ' ', r1.lname) AS LikedBy,
    post.pcontent
FROM
    post
JOIN plikestats ON post.pid = plikestats.pid AND plikestats.likestatus = 1
INNER JOIN registration ON registration.rid = post.rid
INNER JOIN registration r1 ON
    r1.rid = plikestats.rid
LEFT JOIN viewfriends ON viewfriends.friendsid = plikestats.rid AND viewfriends.profileid =
registration.rid
```

b) Example:

```
SELECT
    post.pid,
    plikestats.rid,
    CONCAT(
        registration.fname,
        ' ',
        registration.lname
    ) AS PostBy,
```

```
    CONCAT(r1.fname, ' ', r1.lname) AS LikedBy,  
    post.pcontent  
FROM  
    post  
JOIN plikestats ON post.pid = plikestats.pid AND plikestats.likestatus = 1  
INNER JOIN registration ON registration.rid = post.rid AND registration.rid = 4  
INNER JOIN registration r1 ON  
    r1.rid = plikestats.rid  
LEFT JOIN viewfriends ON viewfriends.friendsid = plikestats.rid AND viewfriends.profileid = 4
```
